**2D/3D Graphics: Conceptual Development • Design • Modeling • Animation**  
**Video production: Editing • post production • Story boarding • Special effects**

Versatile multimedia artist, videographer, 3d animator & PC technician. I have a solid digital education from multimedia programs at both DePaul University and the Harold Washington College. A variety of freelance experiences as well as a broad account of multiple creative endeavors. I strive to excel at time driven challenges and working with others to achieve notable perfection and remarkable accomplishments.
